LIVING LA CASA LATIN

Bored with trendy white and off-white minimalist décor? Then check out decorator and art collector **Juan Carlos**' new coffee-table book, "Latin Style: Decorating your Home with Color, Texture and Passion." You'll find inspiration in the lush and exquisite photos that feature four lifestyles enjoyed by *Latinomaericanos* here and south of the Rio Grande — Cabana (beach babies), Pueblo (folksy), Paradiso (organic minimalism) and Hacienda (horse-and-cattle country.)

"Latin Style: Decorating your Home with Color, Texture and Passion" by Juan Carlos, WorkHouse Books, \$24.99. Available in all bookstores in February. Pre-order at amazon.com
